

MINISTRY OF INDUSTRY AND TRADE

**18<sup>TH</sup> UNITED NATIONS CLIMATE CHANGE CONFERENCE OF PARTIES  
Doha 2012**

**SUPPORT FOR THE NATIONAL TARGET PROGRAM ON  
CLIMATE CHANGE WITH A FOCUS ON ENERGY AND  
TRANSPORT  
(TA 7779 VIE)**

# Executive and Implementing Agencies

## Executive Agency

Ministry of Industry and Trade (MOIT)

## Implementing Agencies (National)

Industrial Safety Techniques and Environment Agency (ISEA – MOIT)

Ministry of Transport (MOT)

Ministry of Natural Resources and Environment (MONRE)

## Implementing Agencies (Sub-national)

People's Committee of Thanh Hoa Province

People's Committee of Da Nang City

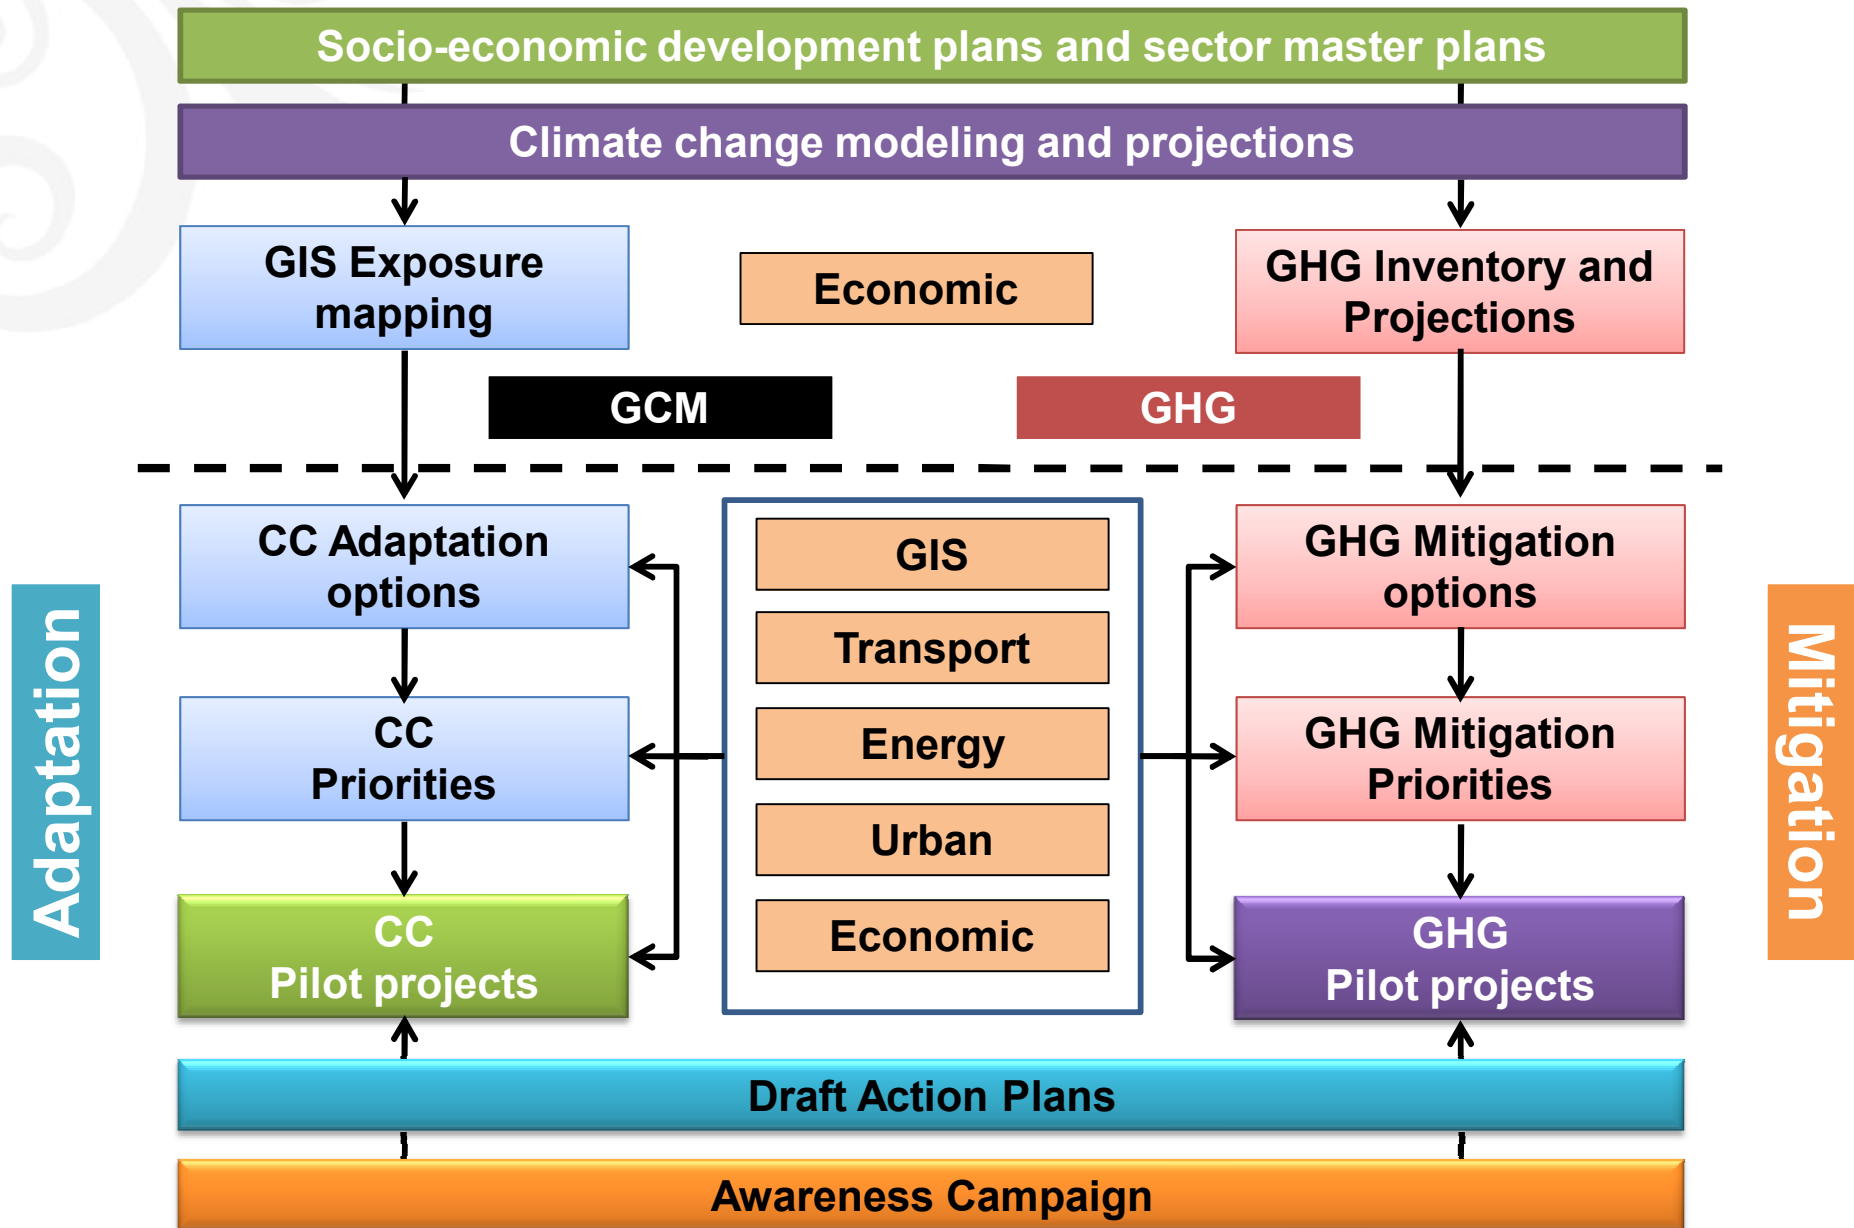

People's Committee of Ho Chi Minh City

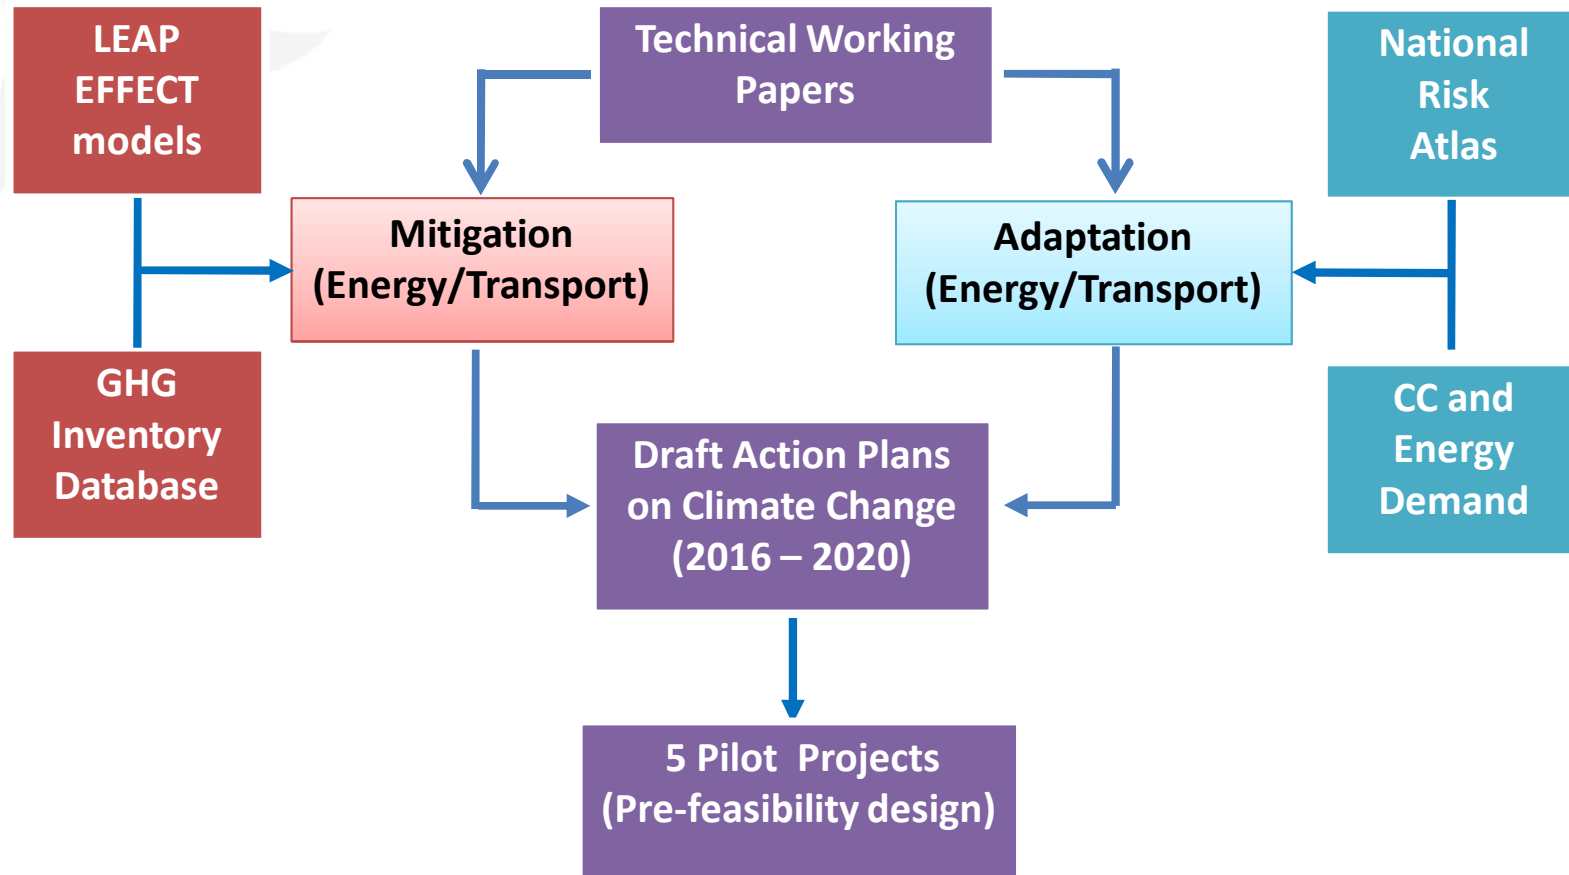

## Key Outputs

- 1. An increased capacity to plan and design responses to climate change, for both mitigation and adaptation;**
- 2. Increased awareness of sector leaders, decision-makers and business community of climate change issues and responses.**

# Overall Approach: National / Local

# Key Deliverables

# Training and Capacity Building

- LEAP (Energy)/EFFECT (Transport) Models

- Modelling energy and transport systems into LEAP and EFFECT models
- Modelling BAU and GHG mitigation options into LEAP and EFFECT models

- GIS/Spatial modeling

- Use of GIS/spatial modeling to assess climate change vulnerability
- GIS/spatial applications in planning and management

- Awareness of climate change

- Design of effective and targeted climate change awareness campaign.

## Foundation for Future NAMAs

- Baseline for some energy intensive industrial subsectors (cement, steel,...) and specific in-focus transport subsectors.
- Estimation of GHG emission reductions from potential mitigation measures in two sectors, and associated mitigation costs.
- Data gap identification for future effort.
- A GHG monitoring and reporting system which can be developed into a MRV.

# Collaboration with Development Partners

- With ADB-RETA-7645 Strengthening Planning Capacity for Low Carbon Growth in Developing Asia
- With World Bank support on Low Carbon Growth in Viet Nam.
- Aim to develop a consistent assessment of low carbon growth options in Viet Nam.
