New posting on our "Columns" and Facebook page.

-- Outreach activities of "Carbon Markets Express" at COP23 Exhibit --

Last October, the Secretariat of the "New Mechanisms Information Platform" has renewed its webpage and renamed as "Carbon Markets Express". Carbon Markets Express website will be introducing the JCM, which is implemented by Japan and 17 partner countries, and carbon market activities in the world, based on the information released by the government of Japan.

Meanwhile, the renowned conference "COP23" is starting in 10 days. COP23 stands for the 23rd session of the Conference of the Parties to the United Nations Framework Convention on Climate Change (UNFCCC). 196 countries/regions are members of the UNFCCC which stipulates the principles of climate change countermeasures and each year, they discuss detailed rules of implementation at the COP.

-- The JCM credits, 8,947t-CO₂, were issued for the project between Mongolia and Japan. --

<<JCM project from which the JCM credits were issued>>

- MN004 10MW Solar Power Project in Darkhan City

10MW solar power plant grids consisting of 32,000 modules constructed across vast Mongolian plain fields to supply clean energy

The credits, 8,947 t-CO₂ for 7 months, were issued.

The project information is available at:

<https://www.jcm.go.jp/mn-jp/projects/22#!/general>

-- Uploaded: The brochure "A Proposal for our Future ver. 7.0: October 2017" --

The brochure "A Proposal for our Future ver. 7.0 : October 2017 - Toward Low Carbon Growth through the Joint Crediting Mechanism -" has been uploaded.

Contents:

<What is the JCM?>

- Basic Concept of the JCM
- Scheme of the JCM
- Number of Approved Methodologies

<JCM Partner Countries>

- Countries with which Japan has signed on bilateral documents to establish the JCM

<Examples of Registered Projects>

- Indonesia: Introducing Double-bundle Modular Electric Heat Pumps at a Hotel
- Indonesia: Energy Saving at Convenience Stores
- Thailand: Introducing Solar PV Systems on Rooftops of Factory and Office
- Mongolia: Solar Power Plant for Power Supply
- Mongolia: A mega Solar Power Project in Darkhan City
- Viet Nam: Eco-driving with the Use of Digital Tachographs
- Viet Nam: Introduction of Amorphous High Efficiency Transformers in Power Distribution Systems
- Palau: Small-scale Solar Power Plants for Commercial Facilities and Schools

<JCM Financing Programmes by the Ministry of the Environment, Japan (MOEJ)>

- JCM Model Projects
- Asian Development Bank (ADB) Trust Fund: Japan Fund for the JCM (JFJCM)

<JCM Financing Programmes by MOEJ>

- Selected projects in FY 2013/2014/2015/2016/2017 on the map

The brochure is available at:

You can see the hard copy at the OECC exhibit or Japan Pavilion in COP23.

-- [Save the date] 9 November 2017: JCM DAY at COP23 Japan Pavilion --

9 Nov (Thu) 10:30-12:00

OECC/UNU-IAS side event

"Achieving Sustainable Development Goals (SDGs) through technology innovation, deployment, and transfer"

How to achieve SDGs through technology innovation, deployment, and transfer utilizing international/bilateral funds will be reported and discussed.

Sharing of case studies from key players in Asia, including the Overseas Environmental Cooperation Center, Japan (OECC)'s field activities on NDC development and project match making/horizontal expansion in Viet Nam, follow the framing presentation on United Nations University Institute for the Advanced Study of Sustainability (UNU-IAS)'s research activities towards sustainable development.

The agenda is available at:

https://www.carbon-markets.go.jp/en_info-2/en_info_event/y_2017/20171109-1/

9 Nov (Thu) 13:00-14:30

Ministry of the Environment, Japan (MOEJ)/OECC side event at Japan Pavilion

"The JCM contributions towards achievement of the National Determined Contributions (NDCs)"

Japan and 17 partner countries are cooperatively developing and implementing the JCM, which is an international market based mechanism in active operation. The JCM appropriately evaluates contribution to GHG emission reductions/removals in a quantitative manner, and use them to achieve emission reduction target stated in each NDC. From the perspective of NDC implementation, what kind of JCM projects should be promoted? The recent progress, achievements and expectations on the implementation of the JCM will be reported and discussed.

The agenda is available at:

https://www.carbon-markets.go.jp/en_info-2/en_info_event/y_2017/20171109-2/
