-- Bangladesh: Energy Saving for Air Conditioning & Facility Cooling By High-efficiency Centrifugal Chiller (Suburbs of Dhaka) [Ebara Refrigeration Equipment & Systems Co., Ltd.] --

The temperature in Bangladesh is over 30 degrees Celsius for 8 months a year. A high-efficiency centrifugal chiller has recently been installed in a factory for processing sugar that is one of the key industries in this hot country.

Used to control the temperature and humidity for the factory inside,... [\(read more\)](#)

-- Updated: List of JCM Projects and Studies under JCM support program --

The following projects and studies adopted in FY2017 have been added to the database.

- 20 JCM Model Projects (MOE)
- 1 REDD+ Projects (MOE)
- 18 City to City Collaboration Programs (MOE)

The database is available at:

-- Report: Asia Pacific Carbon Forum 2017 in Bangkok, Thailand --

The 2017 Asia Pacific Carbon Forum (APCF 2017) was held in Bangkok, Thailand on December 13-15, 2017 as one part of the Asia-Pacific Climate Week (APCW 2017). The APCF 2017 was co-organized by the Asian Development Bank (ADB), the International Emissions Trading Association (IETA), the United Nations Framework Convention on Climate Change (UNFCCC), and the Institute for Global Environmental Strategies (IGES).

The Overseas Environmental Cooperation Center, Japan (OECC) set up a display booth within the APCF 2017 venue, where it displayed and distributed a variety of materials relating to the JCM and provided information to visitors. Around 40 people visited the OECC's display booth over the three-day period.

Meetings were held with about 20 individuals, including government officials and representatives from international organizations and research organizations based in JCM partner countries, as well as offset providers and representatives of government organizations from South Korea, Singapore, the United States and India, which are taking note of the JCM as a representative example of the cooperative approach mentioned in Article 6, Paragraph 2 of the Paris Agreement, and project developers in the process of formulating projects in various countries. An overview of the opinion exchanges with visitors is available at:

https://www.carbon-markets.go.jp/en_info-2/en_info_event/y_2017/20171214-2/

The OECC held an APCF side event on "Innovation, Deployment, and Transfer of Low-Carbon Technology Through the JCM."

At this side event, a case of OECC's horizontal expansion of a Vietnam project into Southeast Asia and a ratchet-up mechanism toward sustainable business development were introduced. A representative from the Thailand Greenhouse Gas Management Organization (TGO), which is the JCM's contact point in JCM partner country Thailand, along with a representative who carries out MRV support for the JCM at IGES were invited as panelists to discuss the progress and expectations relating to the implementation of the JCM.

- Event date: Thursday, 14 December 2017, 10:30-11:30
- Facilitator: Mr. Makoto Kato (Principal Researcher, OECC)
- Speakers: Dr. Paweena Panichayapichet (Manager, Review and Monitoring Office, TGO), Ms. Aryanie Amellina, Analyst (IGES), Ms. Yuriko Koyanagi (Researcher, OECC)

An outcome report, presentation slides, and summary of the proceedings are available at:
