

Accelerating the Joint Crediting Mechanism (JCM) to support NDCs implementation – Project scale-up and stakeholder collaboration –

Date	4 December 2019
Time	10:30 - 12:00
Venue	Japan Pavilion

Japan has started the JCM since 2013 and has been implementing more than 150 JCM projects with 17 partner countries which promotes mitigation actions in these countries. In order to effectively scale up the JCM, collaborations with various stakeholders and effective contributions to NDCs implementation in partner countries are required. In this side event, speakers from relevant organizations and JCM partner countries will report and discuss the status of collaboration and progress of scaling-up the JCM.

Agenda

Introduction

Moderator : Mr. Makoto Kato, General Manager/Principal Researcher, OECC
