Art.30

Voluntary Certification System of GHG, Short-lived Climate Forcing and Water Use

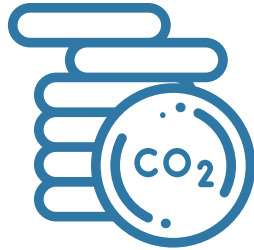

CLIMATE CHANGE FRAMEWORK LAW

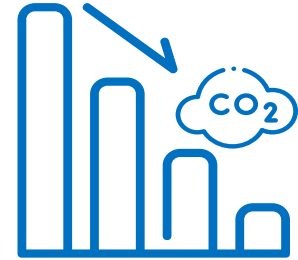

Instruments linked to Article 6 under the law

NDC

**Long Term Strategy
(ECLP)**

**Mitigation Sectoral
Plan (PSM)**

- *Multiyear target*
- *National Mitigation Goal – Carbon Budget*
- *ECLP Guidelines*
- *Recognises Article 6*

- *In line with the NDC*
- *Sectoral Carbon Budgets*

- *Measures envisaged in order not to exceed the sectoral carbon budget*

Plans and strategies for market participation

Inter-ministerial work on data collection:

- National Foresight System
- National Inventory System

Facility for reporting information, evaluating methodologies and determining typology of activities.

National Carbon pricing instrument experience:

- Green tax and its offsetting system

- Leaving more cost-effective measures to the national level
- Learning from national implementation, such as registers

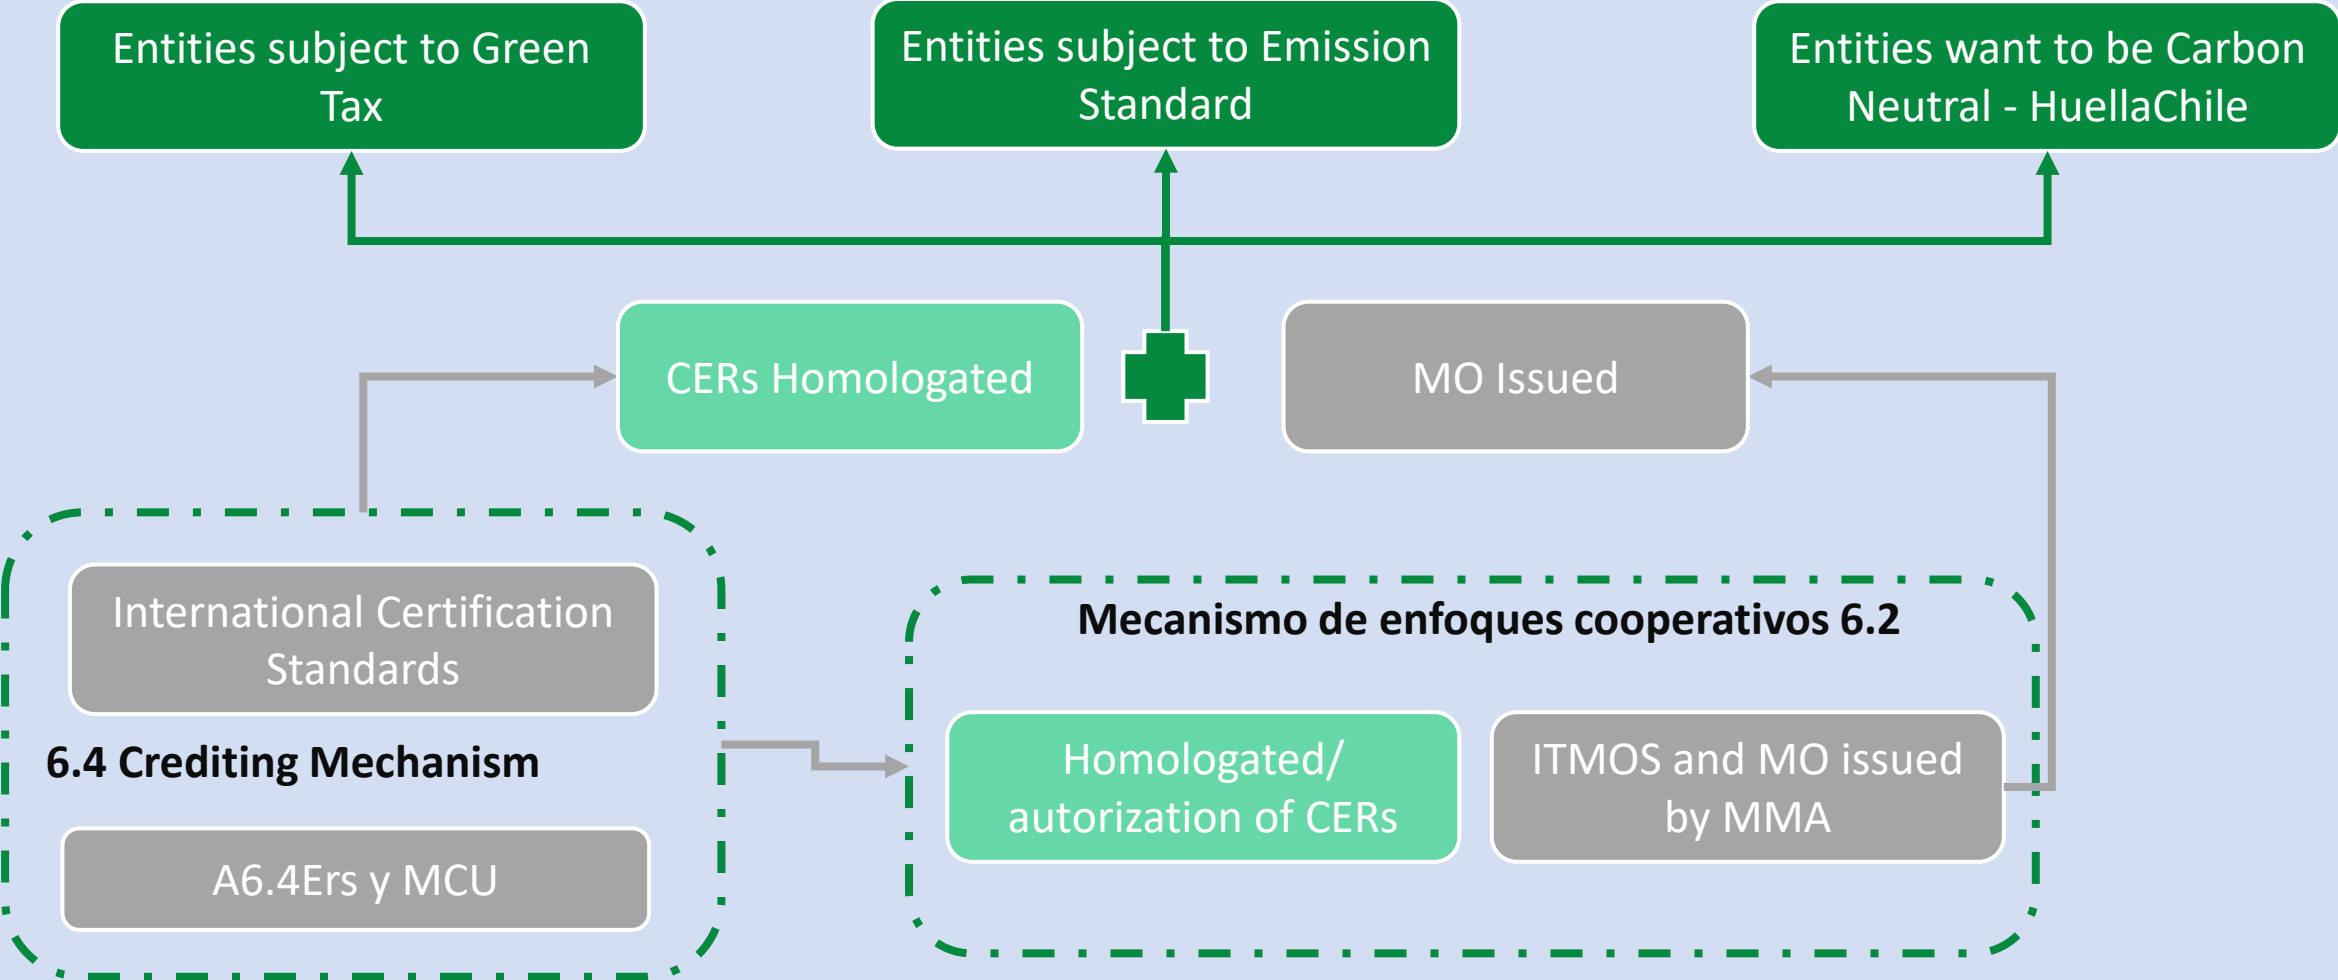

Article 6 work in advance:

- Art6 National Taskforce
- Public-Private Roundtable
- Bilateral Agreements
- Activity typology list

- Move forward in coordination with the ministries responsible for implementing measures
- Define a regulatory framework in a timely manner

* ARTICLE 6 NATIONAL FRAMEWORK APPROVED BY COUNCIL OF MINISTERS

CARBON MARKETS INSTRUMENTS IN CHILE

How to identify article 6 projects in Chile?

ADDITIONALITY TO THE NDC

- A** OUT OF THE NDC-PSM SCOPE
- B** ADVANCE A MITIGATION MEASURE
- C** MITIGATION MEASURE IN THE NDC WITH ECONOMIC BARRIERS:
 - Present a balance of benefits and harms, that demonstrates that the benefits of its implementation through Article 6 outweigh the harm, and does not imply a risk to comply with the NDC.

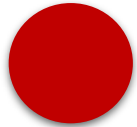

PRELIMINAR DRAFT– TYPOLOGY OF ACTIVITIES: Ministry of Transport and Telecommunications

A

B

C

Green	School Transport
Green	Trucks using green hydrogen for fuel
Green	Modal shift to rail, metro or urban trains: extra train paths to those of PSM
Orange	Electromobility for intercity/interregional buses outside the Metropolitan Region
Orange	Water taxis
Orange	Electromobility - Public transport in Santiago - Sistema Red
Orange	Electromobility - Public transport regions
Orange	Tram development in regions
Orange	Implementation of ropeways
Red	Electromobility in small urban transport (Taxis)

PRELIMINAR DRAFT– TYPOLOGY OF ACTIVITIES: Ministry of Energy

A

B

C

Green	Green hydrogen for local use
Yellow	Conversion or closing of thermal power plants
Orange	Small Means of Distributed Generation (PMGD)
Orange	Energy Storage
Orange	Electrification of the industrial sector
Red	Electromobility in small urban transport (Taxis)
