Carbon Expo 2012

-Global Carbon Market Fair and Conference-

Overseas Environmental Cooperation Center, Japan (OECC)'s exhibition on the BOCM and the J-VER

\*\*\*\*\*  
We are delighted to inform you that Overseas Environmental Cooperation Center, Japan (OECC) will be hosting an exhibition on Japan's Bilateral Offset Credit Mechanisms (BOCM) as well as Japan's Verified Emission Reduction Scheme (J-VER) at the Carbon Expo 2012, which will be held from May 30 to June 1 in Cologne, Germany.

The Participation in the Carbon EXPO is part of activities of the New Mechanisms Information Platform, a Programme of the Ministry of the Environment, Japan (MOEJ). Please find us at our OECC booth B-053 in hall 11.1.

The information materials available at our exposition will include:

- Brochures on the BOCM, highlighting Japan's efforts to establish this mechanism through various workshops and feasibility studies.
- Information materials on the J-VER, Japan's domestic carbon offset credit scheme.

The exhibition will be an excellent opportunity to learn about the BOCM, Japan's initiative to complement the CDM, as well as the J-VER, whose principles are to be replicated in several Asian countries.

The detailed report on this exposition will be available on the New Mechanism Information Platform website (<http://www.mmechanisms.org/e/>) soon after the event.
